Get Grants

community organizations are essential to the health and prosperity of our neighborhoods.

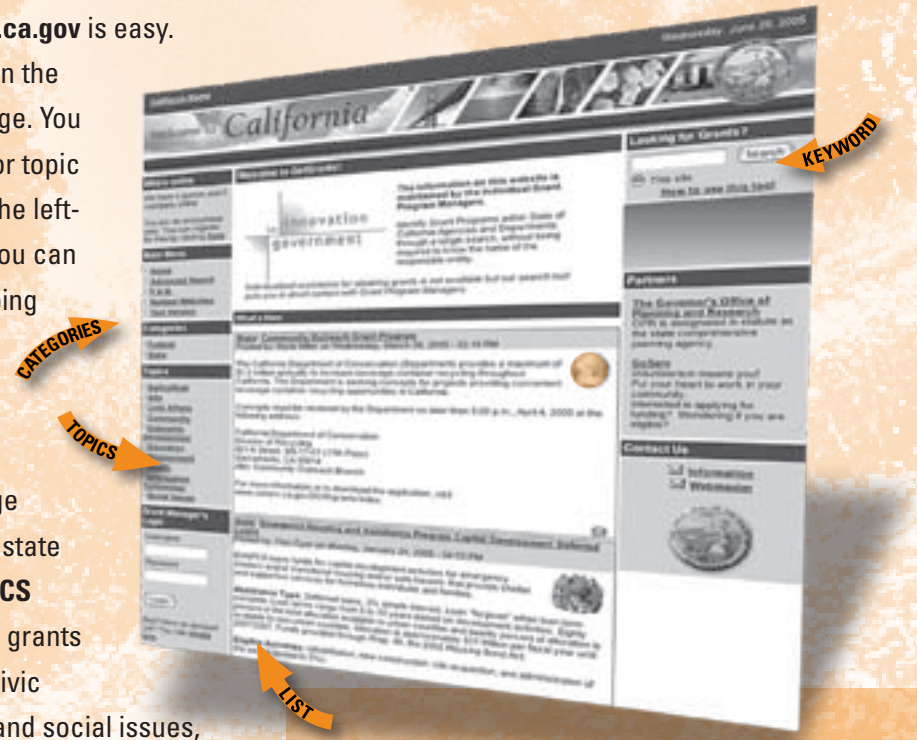
A Grant Could Help Pay for Your Community Project

Community organizations provide much-needed jobs and vital services to the most vulnerable members of our community. Today's economic difficulties create a multitude of funding challenges for non-profits, many of which rely on grant funding.

The California Legislature continues to work on funding opportunities for Californians through grants and supporting public/private partnerships. Local and federal governments, even the courts, are also involved in funding grant opportunities. Private groups are establishing clearinghouses where organizations can get information and begin the on-line application process.

Finding out about grants is challenging, so the State of California has established a website to assist in the search. **www.getgrants.ca.gov** provides a database of California state grants as well as links to federal, public and private grant opportunities.

Navigation of **www.getgrants.ca.gov** is easy. Simply scroll through the list on the center section of the home page. You may also search by category or topic by clicking the links listed on the left-hand side of the home page. You can also search by keyword by typing one in the box on the right-hand side of the home page.



The **CATEGORIES** links on the left-hand side of the home page provide access to federal and state grant categories and the **TOPICS** links will assist you in locating grants by topic such as agriculture, civic affairs, education, health, and social issues, to name a few. There are also icons that will take you to grants with similar subject matter. The earth icon, for example, will take you to a multitude of land-use and conservation grant opportunities.

Following the **Related Websites** link on the left-hand side of the main menu will lead you to even more grant opportunities, including a link to the federal site, **www.Grants.gov,** which provides an access point for over 900 grant programs offered by 26 federal grant-making agencies.

The information on the GetGrants website is maintained by the individual Grant Program Managers.

IT'S EASY:

LOG ON to the website: www.getgrants.ca.gov

FIND LINKS to both state and federal grant programs.

SEARCH by category, topic, or keyword.

SCROLL THROUGH THE LIST of grant programs.

FIND A GRANT PROGRAM that fits your plan.

DOWNLOAD AN APPLICATION or have a hard copy mailed to you by contacting the grant manager.

APPLY FOR THE GRANT.
